

A Sponge Odor Absorber Nature's Air Sponge contains a soap based gel with activated charcoal. When opened, the two components work together to dissipate a stream of "lighter than air" molecules into the environment, interacting with and neutralizing odor and pollutant molecules. This creates a pure, fresh, healthy air quality. Covers up to 300 square feet with an 8 foot standard ceiling.

**SWEET SMELL
OF SUCCESS**

In the early 1950s, many companies began to add to their formulas chemicals intended to actually destroy or neutralize offensive odors, as opposed to simply masking them with fragrance. Compounds used for this purpose included various unsaturated esters, long-chain aldehydes and a few pre-polymers.

DEODORIZERS

A Good Sense® RTU Liquid Odor Counteractant Choose Good Sense® RTU and get to work more quickly. Ready-to-use, commercial-grade counteractant neutralizes odors in the air, in fabric and on hard surfaces. Particularly suited for tobacco smoke, mold, mildew and organic materials.
